

# Joint ESS ILL User Meeting

## Wednesday, October 5, 2022

### Diffraction and Applied Materials (1:30 PM - 3:00 PM)

time	[id] title	presenter
1:30 PM	[202] In-situ neutron diffraction studies of phase separation in mixed carbides	HEDSTRÖM, Peter
2:00 PM	[203] In situ neutron diffraction investigation of grain boundary effect on degradation of Superelasticity in near equiatomic NiTi alloy	WANG, Zifan
2:15 PM	[204] Standardization of industrial residual stress measurement for metallic components: diffraction and destructive techniques	CUI, Wen
2:30 PM	[205] Considering instrumentation for a high intensity moderator at the European spallation source	SAMOTHRAKITIS, Stavros
2:45 PM	[221] Free Slot
