Spectroscopy and Functional Materials (15:30 - 17:00)

time	[id] title	presenter
15:30	[252] Anionic exchange membranes for fuel cells: insight into ion, polymer, and water dynamics from neutron spectroscopy	FOGLIA, Fabrizia
16:00	[253] A combined experimental and computational study of oxide ion conductors	SCHWAIGHOFER, Bettina
16:15	[254] Endofullerenes: dynamics in confinement - CH ₄ @C ₆₀ study	AOUANE, Mohamed
16:30	[255] Hydrogen mobility and reactivity in MoS ₂ catalyst	FOUQUET, Peter
16:45	[256] Vibrational properties of APbI ₃ : from harmonic vibrations to a phonon liquid	LAVÉN, Rasmus
