

SURFACTANT-PROTEIN INTERACTIONS

INGREDIENT:	PURPOSE:
water	
C12-15 alcohols ethoxylated	stainlifter
sodium laureth sulfate	stainlifter
sodium citrate	Water Softener
sodium C10-16 alkylbenzenesulfonate	stainlifter
sodium cocoate	Reduces Foam
triethanolamine	Adjusts pH
tetrasodium iminodisuccinate	Improves Cleaning
disodium distyrylbiphenyl disulfonate	Brightens Colors & Whites
hydrophobically modified acrylate/styrene copolymer	Prevents Dirt Redeposition
calcium chloride	Enzyme Stabilizer
protease enzyme	Cleans Protein-based Stains
methylisothiazolinone	Inhibits Microbial Contamination in Product
methylchloroisothiazolinone	Inhibits Microbial Contamination in Product
