Hard Matter: Hard Matter - Palaestra Nedre (15:20 - 17:00)

-Conveners: Maths Karlsson

| time | [id] title | presenter |
|-------|--|-------------------------|
| 15:20 | [0] Exploring large-scale magnetic structures - magnetic vortices and domains | Dr BLACKBURN, Elizabeth |
| 16:00 | [14] Neutron scattering and spin ice | Prof. HENELIUS, Patrik |
| 16:15 | [16] A neutron scattering study of the hydride-ion dynamics in the novel perovskite oxyhydrides BaTiO ₃ -xHx (x = 0.14 and 0.4) | Mrs ÖSTERBERG, Carin |
| 16:30 | [4] Magnetostructural transition in Fe ₅ SiB ₂ observed with neutron diffraction and the effect of P-substitutions | Mr CEDERVALL, Johan |
| 16:45 | [7] Emergent magnetic order and topologically complex structures | DEEN, Pascale |
