

Deuteration for Neutron Scattering – DEUNET Workshop

Wednesday, 17 May 2017

Soft Matter and Colloids (09:00 - 10:50)

-Conveners: Julian Oberdisse

| time | [id] title | presenter |
|-------|---|------------------------------|
| 09:00 | [25] Neutron Scattering From Deuterated Liquid Crystals | RICHARDSON, Robert |
| 09:30 | [26] Self-Healing Hydrogels: Deciphering The Relation Between Microscopic Dynamics and Viscoelastic Response Using Neutron Scattering Techniques and Contrast Variation Schemes | LUND, Reidar |
| 09:50 | [27] Understanding The Nanoparticle-Protein Complexes and Their Biological Effects Using Neutrons | BALDELLI BOMBARDI, Francesca |
| 10:10 | [28] Experiments and Ideas: Partially Deuterated Samples | Prof. RENNIE, Adrian |
| 10:30 | [34] Selective Deuteration for Surface Science | CLARKE, Stuart |
