## Session 2

**Session** | **Location:** Medicon Village, Auditorium, Scheelevägen 2 223 63 Lund Sweden

3:45 - 4:15 PM

### **Dynamics of Proteins in Solution Studied by Quasi-Elastic Neutron Scattering**

**Speaker**

Felix Roosen-Runge

4:15 - 4:30 PM

### **High throughput biological solution SAXS instrumentation for state-of-the-art structural biology research and validation.**

**Speaker**

Soren Skou

4:30 - 4:50 PM

### **Probing the structural dynamics of photoreceptor proteins by time-resolved X-ray solution scattering**

**Speaker**

Dr Oskar Berntsson

4:50 - 5:10 PM

### **Probing the interaction between antimicrobial peptides and model biomembranes using small angle scattering techniques**

**Speaker**

Ms Josefine Eilsø Nielsen

5:10 - 5:30 PM

### **Surface and colloid properties of oligomeric alkylglycosides**

**Speaker**

Mr Johan Larsson

5:30 - 5:45 PM

### **Beamline Updates**

5:45 PM
