

8th Open Collaboration Meeting on Superconducting Linacs for High Power Proton Beams (SLHiPP-8)

Tuesday, 12 June 2018

SRF cavities & cryomodules: Spoke cavities - Höggsalen (14:00 - 15:20)

-Conveners: Han Li

time	[id] title	presenter
14:00	[12] Flux trapping studies on low beta cavities	Dr LONGUEVERGNE, david
14:20	[13] ESS Spoke cryomodule testing: cryogenic experience	OLRY, Guillaume
14:40	[31] Study of an alternative polishing technique for SRF cavities	Mr HRYHORENKO, Oleksandr
15:00	[14] Superconducting cavity online performance recovery for C-ADS	YUE, Weiming

SRF cavities & cryomodules: Elliptical cavities - Höggsalen (16:30 - 17:50)

-Conveners: Silvia Schuh-Erhard

time	[id] title	presenter
16:30	[17] ESS Elliptical high-beta cavity package test results	Dr LI, Han HAMELIN, Thibault
16:50	[16] Prototyping activities for medium and high beta ESS cryomodules in CEA Saclay	Mr BOSLAND, Pierre
17:10	[18] Preparation of the production of the 30 ESS elliptical cryomodules in CEA Saclay	TRUBLET, Thierry
17:30	[19] Status of the Test Stands at ESS Lund	HEES, Wolfgang
